### EXAMINER'S AMENDMENT

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Matthew R. Jenkins on 05/25/07.

The application has been amended as follows:

#### **In the Claims:**

A) rewrite Claim 1 as follows:

1. (currently amended) A battery having in a housing at least one wound electrode element, the electrode of which being supported on a metallic supporting strip, and having inside said housing at least one pin for making contact with said at least one wound electrode element, and having at least one first contact connection which is fitted to an outer face of the housing and is electrically connected to said at least one pin which is arranged in the housing, wherein a second screw connection is formed between said at least one first contact connection and said at least one pin, whereas said at least one wound electrode element is wound directly around and directly supported by said at least one pin and said metallic supporting strip of said at least one wound electrode element is welded directly to said at least one pin, wherein said second screw connection comprises a screw, said at least one pin being held at only one end to the housing by said screw after said screw is screwed into a cavity of said at least one pin, wherein said at least

one pin directly engages a wall of said housing, and wherein said at least one pin is supported in a recess of said wall of the housing.

B) cancel claims 21-22;

C) in claim 23, line 1, substitute "21" for - - 1 - -;

2. The following is an examiner's statement of reasons for allowance: during two telephonic conversations with applicant's representative, Mr. Matthew R. Jenkins on 05/03/07 and 05/25/07, the limitations of claim 1 were discussed in view of the prior art; it was stated that by further amending independent claim 1 to include the language "wherein said at least one pin directly engages a wall of said housing, and wherein said at least one pin is supported in a recess of said wall of the housing" the prior art is overcome as the prior art does not teach or suggest the foregoing limitations in combination with all the other limitations of claim 1. It was agreed to incorporate such limitations into independent claim 1 to allow the present application.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Raymond Alejandro whose telephone number is (571) 272-1282. The examiner can normally be reached on Monday-Thursday (8:00 am - 6:30 pm).
